Dhakshana Kabi S B

Chennai

(+91) 8682889246 dhakshanabalsan@gmail.com LinkedIn-Profile

Technical Skills

Operating System: Linux, Windows

Languages: Python, SQL (PostgreSQL), R

Tools: MS Excel, Tableau, PowerBI, VS Code, Jira

Python Libraries: NumPy, Pandas, PySpark

Data Analysis Skills: Data Analysis, Data Mining, Data Visualization, Predictive Analytics, ETL

Professional Experience

Capgemini *Chennai, India*

Analyst *December 2024 – Present*

- Completed training in **Guidewire PolicyCenter**, working with insurance data models and **policy lifecycle processes** including underwriting, issuance, and renewals.
- Contributed to **Financial Services** projects, supporting **data-driven processes** aligned with business and regulatory requirements.
- Utilized **JIRA** for **defect tracking, task management, and workflow coordination** in an **Agile/Scrum environment**.
- Analyzed and resolved **production and UAT data issues**, ensuring **data accuracy, consistency, and system reliability**.
- Collaborated with cross-functional teams to investigate **data discrepancies**, perform **root cause analysis**, and improve data quality.
- Supported **data validation, reconciliation, and documentation** of workflows, enhancing data integrity and knowledge sharing.

Pranion Technology Ventures *Chennai, India*

Data Engineer *April 2024 – November 2024*

- Developed and optimized **backend data systems** using **PostgreSQL and Amazon S3**, improving data retrieval efficiency and database performance.
- Designed and implemented **data pipelines and ETL workflows** leveraging **PostgreSQL and Amazon S3**, including **data cleaning, transformation, and validation** to ensure high data quality.
- Built **interactive dashboards** using **Apache Superset**, enabling real-time insights and supporting data-driven decision-making.
- Enhanced a **machine learning-based recommendation system** through **feature engineering and model optimization**, improving accuracy.
- Optimized **PostgreSQL queries, indexing, and schema design**, reducing query execution time and improving system scalability.
- Collaborated with cross-functional teams to **integrate ML models and improve data workflows**, utilizing **Amazon S3 for scalable data storage** and ensuring efficient data processing.

Certifications

Azure Developer Associate (AZ-204) *2026*

Azure Fundamentals (AZ-900) *2025*

AWS Certified Cloud Practitioner *2024*

Education

Mepco Schlenk Engineering College *2020 - 2024*

Bachelors of Technology in Artificial Intelligence and Data Science, GPA: 7.2/10.0 *Sivakasi, Tamil Nadu, India*

Velammal Vidhyalaya, Anuppanadi *2019 - 2020*

Computer Science, Percentage: 76% *Madurai, Tamil Nadu, India*

P.S.Chidambara Nadar Senior English School *2017 - 2018*

Percentage: 65.6% *Virudhunagar, Tamil Nadu, India*

Personal Projects

Deep Learning Marine Detection Network — *Deep Learning, Python, Streamlit, HTML, Javascript* *September 2023 - April 2024*

* I developed a deep learning–based system to detect underwater debris, including both biodegradable and non-biodegradable materials found in marine environments.
* The model was trained using a video dataset, which was preprocessed into image frames for effective analysis.
* By leveraging computer vision and deep learning techniques, the system was able to identify and classify debris with improved accuracy.
